

STGBX-48 STGBX-48RL

RAMTECH INDUSTRIES INC

MADE IN USA

48 Input Stageboxes with 6 Returns

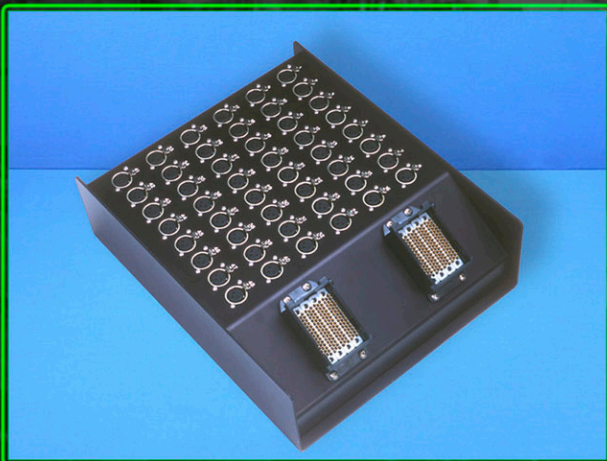

STGBX-48

The STGBX-48 is a 48 channel input stagebox / cross stagebox with four CPC inputs and one Ramlatch RAMX025 output. This box is designed to be used in conjunction with a STGBX-54 for festivals and other multi-stage events where rapid strikes and setups are required. It can also turn the "record out" of a stagebox 54 into an input.

In addition, it can be used as a stand alone input stagebox.

- 48 female highest quality Neutrik brand xlr connectors
- 49-54 male xlr's for returns mounted on backside
- Premium quality isolation transformers available in 1:1 and 1:2 ratios

STGBX-48RL

The STGBX-48RL is a 48 channel stagebox with two Ramlatch RAMX025 outputs.

Channels 49-54 are male xlr connections mounted on the backside panel to be used as returns.

This is a stand alone input stagebox.
